Of the Cleared Swamp Land, well drained, recently cleared, and under a fine state of cultivation. There is no better Corn Land in the State, and it is easily cultivated. We believe that in natural fertility of soil, durability, and in number of bushels of grain produced by the acre, this land will not suffer in comparison with any in the State. The splendid crop now upon it justifies, in our opinion, this assertion. The overseer believes that the present crop of corn on the swamp land will yield, when gathered, from fifteen hundred to two thousand barrels. Of the Uncleared Land, most of it is rich Swamp, as good as that which is cleared, with a heavy swamp growth rels. Of the Uncleared Land, most of it is rich Swamp, as good as that which is cleared, with a heavy swamp growth upon it, and easily drained. Underlying the whole of this swamp land, cleared as well as uncleared, is a rich Marly Subsoil, giving, as experience on this farm proves, great durability to the land. This land is not liable to freshets. It is within a mile of Pungo River and Pantigo Creek, and twenty-eight miles from Washington on the main public road leading from that town to Hyde County. Sea vessels load and unload within a mile of the premises, thus rendering the surplus products of the farm easy of exportation to the best markets of the country. The waters of Pungo and tributaries yield fish in abundance. It is a first-rate range for stock, especially for hogs and cattle, in winter as well as

The houses have been constructed and the yards and shade trees determined to the construction of the construction arranged with good taste and architectural beauty, and the farm is well laid off and presents from the house and to the

passer by a most beautiful appearance.

This farm is in a neighborhood of sobriety, hospitality and good morals, and is in the vicinity of four different houses of Public worship.

As no one will purchase without examination, the overseer on the premises, Mr. Jenkins, will give all the information in his power, and afford every facility for examination to

those who may visit the farm.

> ANCIENT WHEAT .- Two years ago, a scientific gentleman in making archeological researches, in some of the ancient tombs in the South of France, found imbedded with some preserved bodies a species of wheat not now in existence. It was a habit in the days of the first Gallic Kings to place in the coffin of embalmed persons a certain quantity of wheat. Some of this wheat was sown, and the gentleman was astonished to see sprout forth from sixteen to twenty stalks from a grain. As they grew, the stalks be-came angular and much stronger and more vigorous than the common wheat. When the grain formed, it was found that there were on an average twenty more grains in a head than in the ordinary wheat .-A considerable quantity of this ancient Gallic or Roman wheat was sown last fall on the Government farm at Rambouillet, and great reports are arriving of its productiveness. The ordinary wheat of France is, I suspect, only the degeneration of this ancient wheat, diminished in vigor and productiveness by the centuries of reproduction through which it has passed. This discovery will take us back through fourteen centuries for our seed wheat, and will put France suddenly in possession of one-eighth more agricultural wealth than she possessed before the discovery !-

> At least these are the expectations built upon it, and it is to be hoped that they will be realized. Mass Meeting .-- October 22d and 23d A Mass Meeting of the friends of Buchanan, Breckinridge and the Constitution, will be held in Wilmington on the 22d and 23d days of this month. Distinguished speakers from our own and other States will be in attendance, and the occasion, we feel assured, will be one long to be remembered.

We can promise all visitors " a feast of reason and a flow of soul," and also something more substantial, to prevent the physical man from suffering. In plain terms, there will be a dinner or something else to eat, of which all, without distinction of party, are invited to partake, as they are to listen to the addresses.

To all, East and West, North and South, in this district and out of it, we would say-Come! You will be welcomed, and we will be glad to meet you in fact, that is what we want to do. We want to see such a gathering as will show that, while the friends of the Constitution and the rights of the South are struggling manfully at the North, we here are neither apainetic nor indifferent. We want to see such an outpouring of the people as has never been seen before in this place.

There is another reason why every true North Carolinian-every true Southern man, should lend his aid to us in this meeting. It is gotten up in compliment to our Senators and Representatives in Congress party so largely in the majority, simply because the who stood up manfully throughout the whole exciting and trying struggle upon the Army Appropriation Bill, when a Free Soil majority in the House of zen, convinced of the rectitude of his cause, can nev-Representatives attempted to over-ride the Constitution and coerce the President and Senate.

Presidential Election,

TUESDAY, NOVEMBER 4th, 1856. this prominently before We would wish to k our readers, especially those in the strong Democratic counties in this District, from now until the arrival of that day upon which the people of the United States, from Maine to California, are, in their respective States, to choose Electors for President and Vice President. Every man who has taken the slightest interest in public affairs-who knows any thing of the momentous issues involved-knows that this will be the most important election ever held in the U. States, involving more important results to the Union, and the safety of the South ;-nay, involving the very Union itself. Is this a time for apathy, or is it a time for exertion? Shall we fold our arms, and let the thing go by default; or shall we come up to the work like men, and give Buchanan and Breckincrats of New Hanover, and Duplin, and Sampson, of Italian liberty! and Bladen, and Columbus, and Onslow, and Wayne, and Edgecombe-aye, and Brunswick, too; but we do not confine our remarks to these. We mean them for the Democracy of every county which our paper may reach. We call upon them in the name of their country-in the name of their cause-to arouse, exert themselves, shake off the apathy which seems to have taken possession of them, and bring out their whole force on the 4th day of next November.

We beg of them to bear in mind that the August election was, after all, but a preliminary skirmish, and that the great pitched battle of the canvass is yet to come-that the great issue has yet to be decided, on the 4th day of November. We achieved a great triumph on the first Thursday in August last; but if we allow that to relax our energies-to impress us with a fatal feeling of security, then better had it been for us had we achieved no such triumph.

We don't say this for the purpose of exciting unnecessary alarm. We have the strength and the votes to give to Buchanan and Breckinridge at least fifteen thousand majority. But votes do not count unless they are polled, and certainly no more mortifying result could be shown than the defeat of a voters were content to stay at home and trust the great issues of the election to accident. A free citier leave the vindication of that cause to chance, without incurring the responsibility attaching to a wilful neglect of duty.

We wish to speak plainly to our friends-we alfeeling is stronger in this section than it was in Au-DUPLIN COUNTY .- We are requested to state that gust last-that men who voted for Mr. Gilmer will there will to a mass meeting of the Democrats of now vote for Buchanan and Breckinridge. Of course he can no longer retain a position in the University of a State, to whose institutions he is a traitor, nor enjoy even common respect among her citizens, but beyond this it is better not to go further, than to exercise the necessary amount of surveillance over dangerous characters to keep them from stirring up servile insurrections or agrarian move-

Does any sane man believe that Mr. Stewart thinks the Democratic party will be beaten 50,000 in October ? If Mr. Stewart thinks so, with all the evidence to the contrary staring him in the face, he must have a small quantity of brains; if he does not think so, why has he asserted it? But he adds: "The Buchanan and Fremont men are bitterly hostile and and resulted in a prompt verdict of guilty of municipal the State Solicion Strange and G. both courting the Americans. > Uniontown, Fayette Co., Pa.,) September 20, 1856.

Dear Argus: Having seated myself to write you few lines in regard to the present campaign, I feel placed in a very novel and peculiar situation, as this is my first attempt at anything like meddling with political affairs, but I feel it to be an imperative duty unon me as a Southerner and Virginian, to make an effort to inform my fellow-citizens of some startling facts that have passed under my own observation. It is generally thought by you at the South, that

Mr. Fillmore has what is called a "straight electoral ticket " in the old Keystone. For the benefit the "Old Line Whigs," especially of Virginia, I would say it is not so. The ticket is merely a blind in order to get the South divided upon Fillmore and Buchanan, the free-soilers knowing " a house divided against itself cannot stand." But of course you want the proofs-I will give them. Every one knows that the Hon. Andrew Stewart, of Pa., nominated Mr. Fillmore for the American candidate for the Presiden. or choice, of a common country, to be perpet ey in the Philadelphia Convention. He is now at the all hazards head of the American electoral ticket in this State -Now this man, though holding the position he does, as a Senatorial elector for Mr. Fillmore, is one of the strongest advocates for John C. Fremont that I have seen, and I have abundant opportunity to know, as he is at the head of the board of trustees of Madison College at this place, of which I am a student.

On Thursday last the Black Republicans held

meeting about six miles from here, and as all the stu-

monters, they obtained an excuse from recitation for the class on that day in order to attend the meeting, and as I had nothing better to do, I went along with them. Now, gentlemen of the South, who do you suppose composed the procession at the gathering? Black Republicans, of course, you say. No, about one-half of the Fremont procession was composed of American people will be discussed in a master men who had professed to advocate Mr. Fillmore .- manner by some of the ablest statesmen in the li They might have been honest when they left home. Oh, yes! a noble old-liner, whose touching pathos I will not forget to my dying day, came tions having been extended to the Hon. Rufus (out for Fillmore. I will give you an account of it .- of Massachusetts, Hon. J. K. Paulding and James A Fremont fusionist had just finished speaking and left the "stump," when I was attracted by the cry of Barclay, Barclay—so I drew near to hear the honorable gentleman "Fellow-citizens," he began, 'You all know that I am a Fillmore man; that I have A. Bayard of Delaware, Hon. Reverly Johnson always been one; that I am still one. The other day one of our friends came to me and said, Barclay, what are we old-line whigs to do now when our par ty is fusing with the Fremonters. Why, says I, by God, let's advocate Fillmore and vote for Fremont .-That is what I am doing now, and that is what I intend doing." And let me add, Messrs. Editors, that is what the Hon. Andrew Stewart is doing with all his might and main. Mr. Stewart, in a speech delivered at the same place, on the same day, pointing to a representation of Fremont, said: "There is a above call and which proved to be one of the m man we should all be proud of. There is the man est outpouring of the merchants, mechanics who is to make Kansas a free State at all hazards," and other such expressions-all the time receiving city. An extended notice of this meeting will great applause from the Fremonters. He also said, and in this he was not alone, for it is the freesoil hobby, that the men of the North had long enough been a cats paw for the South-ever since the foundation of the republic, and that the South had done everything in order to excite sectional feelings, and to embroil our people in the hellish horrors of civil war.

Mr. Stewart is (as I said before) not alone in his changes against the South, and his support of Fremont. Would that he were, but no. Fremont has hundreds of supporters even in this town and county, and yet Southern Whigs still persist in supporting Fillmore, when there is no possibility whatever of securing his election. His friends are more numerous in this part of the State than in any other, and here they are far out numbered by the advocates of Fremont. Five of the electors in this State on the Fillmore ticket have come out for Fremont, and the others are working for him to a greater or less degree. Will the men of the South continue blind to these facts?

Now one word in regard to the Democracy of this vicinity. They are united to a man and are all doing every thing that men can do to forward the truly great and noble principles of Democracy. They have buckled on their armor, and are battling manfully with their foes. To show with what success, I would state: Fayette county that two years ago gave 1200 Washington, Oct. 6, P. You know not what charges and insults have been heaped upon them, and they nobly bear them for your sake They are charged with being a disunion party, with being a pro slavery party, traitors to the North and Northposition was taken all the parties were arrested, to- ing for at the South do not desert them in the hour of need, and if you nobly support them as you should: Du tibi (si qua respectant numina, si quid Usquam justitiœ) et mens sibi conscia recti

From the Albany Atlas and Argus.

Fremont in California, the State from which he has borrowed his fame, must be a painful subject of contemplation to his supporters here. It is significant. California, like Georgia and Carolina, the scenes of his youth, and Missouri, the home of his later years, rejects him almost unanimously. It knows him; it has tried him; it has weighed him in the scales, and found him wanting. It has tested his character, and found it dross and not pure gold.

When a candidate for re-election, he received on the 140th and last ballot only nine votes, viz: Of the senate-Adams, now out of the State; De La Guerra, now democrat; Foster, do.; Lippincott, do. Of the house-Carnes, now out of the State; Covarubus, no democrat; Hoff, do.; Abel Stearnes, still a supporter of Fremont; Pico, do.

Out of seven of his then supporters in the State. two alone now remain faithful to him!

What strength Fremont has he draws from know-nothings. The Marysville Herald abandons Fillmore because he has no chance, and goes for Frement. The Fremont clubs are composed of knownothings. The Sacramento State Journal of August 27, in speaking of the black-republican State convention then in session in that city, says: "We have taken pains to ascertain the antece-

dents of the men who compose this black republican convention, so far as their political views have been concerned. We do not exaggerate when we state that nine-tenths of them voted the know-nothing ticket last year, and five-sixths of them were old-line whigs. You can single them out, one by one, and you will find that all their histories have been the same. They have been political hangers on in California, but have never (ccupied position in the democratic ranks. The convention is necessarily a fair reflex of the materials of which the black-republican party throughout the State is composed, and we are quite impressed with the conviction that nine-tenths

of them are last year's know-nothings." But while he is thus drawing from Fillmore what little strength lay in the know-nothing party, he does not draw over the whole body. A large number of citizens national in feeling have abandoned the lodges in order to enlist under the banner of Buchanan number; and I to select one hundred actual and the Union. We see that Mr. Eugene B. Drake, of Tuolumne county, publishes a letter in the Sonora Democrat in which he repudiates Fillmore, and unites himself with the democracy. Mr. Drake was a prominent member and leader of the know-nothing order, and was to have been nominated by the Fillmoreites for county recorder. Mr. Basoom, of Santa his ways, but if he cannot do that, that he will take Clara county, another leader of the Americans, has taken the stump for Buchanan; and the democratic was waxing warm pon the political questions of the papers publish a card signed by twenty-five members day; and if the steam continued to rise as rapidly The above is just what we should expect from a be between Buchanan and Fremont, and preferring would explode.

The Great Poughkeepsie Meeting.

Our New York democratic exchanges, particularly from the interior of the State, are filled with glowing descriptions of the great demonstration at Poughkeepsie on the 1st instant. All accounts agree in stating that it was the largest and most enthusiastic outpouring of the democracy ever witnessed in the donster mass meetings of the people of Michigan | Empire State. The Albany Argus says:

"There were twenty-one steamboats from the ius, in the city of Detroit, during the Agricul- north and south ends of the river, which gathered al State Fair, on the evenings of Wednesday and crowds from the cities and villages on either bank .-Some of these carried 1,500 men. The railroad trains The following-named distinguished orators and each way were crowded. From the opposite side of statesmen of other States have been invited to address the river, and from the towns in the interior of the these meetings, and assurances have been received country, the democrats came in by thousands. 'Welcome, friends of the Union,' Frock Coats and Doeskin Pants made, cut, trimmed, &c. and the names of Buchanan and Breckinridge greeted the eye on all sides.

"The banners bore devices innumerable. Bucks' pheus Felch, John S. Barry, G. V. N. Lothrop, heads appeared on all sides. The Empire Club of New York city was most conspicuous in its bearing. The organizations from the river towns and the interior were composed of the chosen youth of the State, resolute, fearless, indomitable in their democracythe very men to carry victory by the point of a bayonet in a warlike contest, and to triumph by their enthusiasm in the peaceful struggles of politics. The Albany Rough Hewers Club did not come on the ground till late, owing to the postponement of the hour of departure and the inefficiency of their boat .-When it did come, it made itself felt by its gallant bearing, and heard by the salutes of its cannon,

TOBACCO IN KENTUCKY AND TENNESSEE. - A cor respondent of the New York Journal of Commerce, writing from Big Springs, Ky., on the 25th ult., says: "The past four days, commencing on Sunday, 21st, the weather has been very cold for the season, and on the nights of Sunday, Monday, Tuesday and Wednesday, we were visited with heavy, killing o me, and he made some trifling remark, to frosts. Night before last the thermometer was down to the freezing point, and we saw ice on the still

> FILLMORE MEN GOING FOR FREMONT .- The infamous coalition entered into by the corrupt leaders of the Fillmore American party, to transfer their strength to Fremont for a consideration, will be repudiated by a large number of the conservative men of that party, who hold with Mr. Fillmore, that the that party, who hold with Mr. Fillmore, that the support of Fremont is tantamount to treason, and that his election will produce a dissolution of the Union. That the leaders have bargained away their votes there is no doubt; that they will ratify the

bargain is quite another matter.

We are loth to believe that this game of treachery and double-dealing is winked at by the South. But why is it that there is no remonstrance or protest black man's party. They have surrendered withistriking a blow—hauled down the American (?)

From every quarter all eyes are now fixed upon the Presidential election. It is a satisfaction to know that all the Southern States are united on the same candidate." Together they met at Cincinnati, as a band of brothers' and extended the right hand of fellowship and confidence to the constitutionalists at the North. They felt that the times were full of danger. They heard the wild cry of fusionists and Black Republicans calling destruction upon the constitution of their fathers, because it extended its protection over the property of fifteen States of the Union. In confident strength they demanded battle .-It was not declined. At Cincinnati the Democratic party of the Union submitted to the country their platform of principle and tried them as faithful standard bearers. The issue is now joined. The Democracy have control of every Southern State; and but for the dissentious opposition of the friends of Mr. Fillmore, the South would be united. The struggle now is "Constitution or no Constitution," whether the destinies of this confederacy are to be wielded by a party represented in the struggle of the struggle of the struggle of this confederacy are to be wielded by a BROS. dard bearers. The issue is now joined. The Demoparty represented in every State; or by one confined to sixteen States, and containing in its rank every grade of abolitionism and freesoilism, every element obnoxious and inimical to the South. The struggle is unmistakeably whether a constitutional or a section al Abolition party is to provide laws for the protection of the rights, and property of the fifteen slave States. The crisis is pending, and let the result be awaited queitly and calmly. Now is not the time for agita-

tion which generally means nothing more than inflammatory speeches whose patriotism is measured by their violence and ultraism If Mr. Buchanan be elected, then no one would have made imprudent speeches, savoring more of impetuosity than of wisdom. But if Mr. Fremont be elected, then let there be no time lost in wordy agitation; guidance and action will be only required. He will be the statesman who can guide, what will

be, the simultaneous and universal impulse of resis-

tance to the control of our rights and property by

our enemies. There is every probability that the standard bearers of the constitutionalists will be elected. From every side we hear cheering news. But let November decide it. Let the South make no threats; but when it is solemnly announced that there is no longer security for her in the Union, it will then be time for her wise men to meet together and counsel for the safety of the South .- [Winnsboro Register.

Firs: Why prominent.

For a long time there was a paragraph making its regular weekly appearance in our columns, with the brief but emphatic words, "Fits! Fits!" always at the head, to some an offensive caption, but not so to the benevolent and humane, who could sympathize in the sorrows of others. Some persons are shocked at any indication of disease, and are even thrown into nervous excitement on witnessing a hearse or a coffin. Such are to be pitied. We should always strive to look disease and even death in the face with calmness, and especially take every opportunity for alleviating disease.—

The deceased has been for some months in delicate health, about ten days before her death, was stricken with parallysis, and never spoke afterwards, though conscious until near the last. The Favetteville Observer of Thursday, erroneous ly charges us with having misrepresented the language used by Mr. Graham in his speech in the "Whig Convention." The Observer knows that we did not, in our article of Wednesday last, pretend to quote Mr. Graham's language, and therefore can make nothing by saying that the Ex-Governor did not use the precise words employed by us. He did use words equivalent, he did assert that he and his compeers came on purpose to nominate Mr. Fillmore, to ratify the action of the Know Nothing Convention, and he illustrated by a yarn so old that it may well have discended from "the better days of the Republic." Does the Observer pretend that we have in any way misrepresented the meaning of Mr. Graham's language? It should be remembered that ern Know Nothingism. Where did the twenty-five thousand extra votes come from? The State has increased very little in population within the last four years. It is in fact, one of the most stationary States in the duct took the matter in their own hands and gave Union, hardly advancing at all in population. The vote polled at the recent election, shows a larger ratio given to a public man in New Hampshire. THE RINGS OF SATURN .- In the recently issued work entitled " The New Theory of the Creation and Deluge," it is stated that it is probable the rings which surround Saturn are composed of water, snow or ice, which, at some future time, may descend and deluge that planet, as ours was deluged in the days of Noah. It would now appear that such an event is likely to take place sooner than was anticipated; for Sir David Brewster says that Mr. Otto Stuve and Mr Bond have lately studied with the great Munich telescope at the observatory of Pulkaway, the third ring of Saturn, which Mr. Lanette and Mr. Bond discovered to be fluid; and that these astronomers are of opinion that this fluid ring is not of very recent formation; that it is not subject to rapid change: and they have come to the extraordinary conclusion that the inner border of the ring has since the time of Huggens been gradually approaching to the body of Saturn, and that we may expect sooner or later, perhaps in some dozen of years, to see the rings united with the body of the planet.

THE INVENTOR OF PICKLED HERRING .--- Some of our most valuable inventions are of so simple a character that the only wonder about them seems to be that they were never found out before. It is said that the Emperor of Russia has just returned from a visit to the little town of Borge, on the Baltic, where he took part in the ceremony of laying the foundation of a monument to the memory of the fisherman Beukels, who first introduced the plan of preserving herrings by salting and packing them. THE WOOLY HORSE.-The origin of this term, now so common in political discussions, is as follows: About six years ago, a cute Jonathan exhibited an animal in various places in the Northern States, which he advertised as a "nondescript captured by colonel Fremont and his party on the river Gila, New Mexico." Upon the arrival of the exhibition in Washington, Col. Benton requested a correspondent of the National Intelligencer to say "that it was a gross imposture upon the public, and an outrageous buse of the name Col. Fiemont." The correspondent proceeded to say that it was reported in New York that the animal was purchased of a colered man in that city who had for some time used him in an ash cart. It is certainly nothing more than a bad look. ing horse with curly hair, and his name and tail shaved off, to give him the appearance of a "nondescript from the river Gila." And serve the blockhead right. A man who would let any woman have a watch worth £25 deserves to be served out. What does a woman want with a watch like that, or any watch, indeed.
